THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

1. In the Stadt Forst Liebenwalde, approximately $2\frac{1}{2}$ kms. northwest of Klosterfelde (52° 48'N 13° 29' E) the complex Project 106 has been occupied by the E.G.A. (East German Army).

2. The occupied sites are contained in two clearings at approximately map references 961 532 and 960 530,¹ and are bounded by the following areas:

- a. Gross Schönebeck to Klosterfelde road northward from corner of Jagen 4.⁶
- b. Along boundaries of Jagens 19 and 60/61.
- c. Northwest corner of Schleedorn Wiesen; however, exact boundary termination is not known.
- d. Along southern boundary of Jagen 70/71.
- e. Through Jagens 29 and 30 to Jagen 14, and on through Jagens 11 and 12 following edge of woodlands back to Jagen 4.

The entire boundary was patrolled by pairs of E.G.A. sentries armed with automatic weapons. There were numerous signs at regular intervals indicating the following: "Property of the East German Army - Entry Prohibited (Eigentum der N.V.A. - Betreten Verboten)."

3. Through one or two breaks in the woodland, it was possible to see a number and variety of brick buildings, but it was impossible to approach close enough to obtain a detailed layout. The build-up complex in the southwest corner of the area was particularly heavily guarded, especially in the approaches to Jagen 30.

4. [redacted] a rocket site had been constructed in these woodlands, and [redacted] a number of heavy covered trailer trucks entering the site toward the end of February 1961. 50X1-HUM
5. On 12 March 1961 two conventional covered Soviet Army trucks, [redacted] were observed leaving the main road at UU 975512 and proceeding up a track toward the site. 50X1-HUM
6. The main road (Route 109) between Basdorf and Klosterfelde was being relaid, and concreted (reinforced) to a thickness of approximately 20 cms. There were persistent rumors in the locality that a new heavy roadway was planned between Klosterfelde and the nearby Autobahn, but there were no signs of any surveying pegs, or excavation to indicate the route of such a project. 50X1-HUM
7. Early in March [redacted] hearing a siren in the new EGA site, and of increased security precautions around the immediate area. On each occasion, there was a loud explosion, which was both heard and felt in the district, but there were no reports of anyone seeing smoke or sky trails that could relate these sounds to the discharge of missiles.
8. The former Luftwaffe landing ground at UU 940 538, adjoining the northwest corner of the site, is being used by a glider unit which comes from Alexander Platz in East Berlin. The gliders are winched into the air by a series of mobile trailers.

[redacted] Comment:

50X1-HUM

1. All map references are taken from GERMANY 1:25,000 [redacted]

50X1-HUM

6. [redacted] Comment: Jagen is a German term for subarea of forest (for mapping purposes).

Description of Attachment:

An overlay [redacted] showing the boundaries of the X-106 site near Klosterfelde.
